

Canadian Barn Dance

We usually dance it progressive. This is how it comes. Do it with me.

It's forward with your partner, backward you go
Away from partner and back, men move up to girl in front
Face, together side, step close step
Polka or waltz around.

And that was the barn dance. Do you want something a little quieter and more organized and orderly? Not really. Good. I'm so glad you don't. We'll do something a little quieter.

Every man who can keep hold of this girl and get yourself another woman if you can. If you can't, just make do with one. But any man who can get himself two women, do so. I apologize for this. It's an American dance, but one we do an awful lot at home. So we've put it into our dances. This is one that the halt and the lame and the senior citizens like me are all capable of doing. I'm a senior citizen. I am. Please somebody who knows tell him I am because he's making awful fussies about having tired legs. Texas Schottische for Three.
