DANCE

FESTIVAL

The Miami Valley Dance Council's first festival is scheduled for October 29th. & 30th. in Dayton's Fairground Coliseum. Sponsored by 14 dance clubs in the area, the festival will include square dancing, folk and round dancing, contras, quadrilles, demonstration dances, and even a session in the mambo. There will be a total of 3 sessions as follows:

Saturday afternoon	1 to 5
Saturday evening	8 to 12
Sunday afternoon	1 to 5

\$2.50 per person per week-end.
\$1.00 per person per session.

More than half of the time will be devoted to squares. The remaining time will be divided among the other dance forms. Folk, round and square dance leaders from Ohio, Indiana and Kentucky will participate in the two-day event, with some 25 callers on the program. Bob Beane's orchestra will furnish the square dance music. Folk and round dances introduced Saturday afternoon will be reviewed Saturday evening and Sunday afternoon, so that those who are not familiar with this type of dancing will get a real taste of it. The general level of square dancing will be what may be called "intermediate", so that everyone will have a chance to relax and enjoy themselves. For additional information, call or write Mike Solomon, chairman of the Miami Valley Dance Council, Municipal Building, Dayton 2, Ohio (HE 3441). For information concerning over night accommodations call or write Mrs. Mary Ann Woolery, 756 Glendean Ave. Dayton 3, Ohio. From 9:30 to 5:30 at MI 6311 and after 6:30 at KE 6352.

The Festival Committee has been busy since March, carefully considering each detail that their combined experience could conceive of, in order to present a week-end to the Miami Valley area that will make each one of you and your dancing friends really glad to have come. The purpose of the festival is to establish an occasion when those interested in the various types of dancing will have the opportunity of getting together to exchange dance experience and have fun.

Will you please extend this invitation to your groups and to your friends. The old adage fits here!

THE MORE THE MERRIER!
