

DIRECTIONS FOR  
HOST AND HOSTESS AT WEEK-END

October 1, 1977

Each hostess please bring one or two large serving spoons (needed for platters of cabbage rolls and potatoes). Also, a set of pot holders for carrying hot dishes to table. Please be sure they carry your name or some way for you to identify them and please pick up when dinner is over.

At 5:45 p.m. men set up tables according to the diagram, and put on white plastic for table cloths. If necessary, use tape to hold at ends. Set chairs, 12 to a side, NONE at the ends. (two tables to be set up as one table)

Ladies then set tables with plates, silver and napkins. If needed, help decorations committee in putting on center pieces, candles, etc. Dishes, silver and napkins will be either on carts or at the service window.

At 6:15 p.m., ladies place bread, butter, red beets(salad) and bowls of tomatoes. All of these will be at service window. Please do not put on before this time, some folk dancers snack before the meal--would like to prevent this if possible.

Immediately after "grace" has been said, please line up at service window for two platters of cabbage rolls, one large or two small of potatoes. Men, help too. Please line up according to your table number, that is, head table first, then #1, #2, etc.

Desert, coffee, tea, and milk will be at the center table, unless we have enough coffee pots or pitchers for each table to have coffee. There should be young ~~ma~~ girls to serve the desert, if not, hostess and host serve.

PLASTIC cloths are being used, would like to save to use again, so watch when clearing off tables. Wipe dry and fold and return to kitchen. Pans will be marked for knives, forks, spoons at service window. Please separate, makes it easier for the dishwashers.

Men take down tables, stack some of the chairs so that dancing may resume at 8:00 p.m.

Head Table,

Pappas
