Dear John:

I'm "positivel confoosed." Between trips, trying to get out a magazine, local activity in which I'm involved, I don't know where I'm at or why I'm there. After a trip return the mail-pile up & trying to catch-up is despairing. As you know I'm THE only one working on the mag.

The thing is that I don't recall whether it was you or someone in Florida who complained about an ad paid for a year but appeared only once. If it was you please lememo PRONTO. I'm working right now on t e next issue and so I'll include it and I'll remember to print it for a total of six issues (five more). This will be in better season, too, toward fall and winter. I'm very sorry for the failure on my part. My main problem is that I rely too much on my memory, which is not THAT good.

Y'all have a nice summer. See you at KDI?
